EDUCATION

Velammal Engineering College   Chennai
Bachelor of Engineering

Pursing in Computer Science(3rd-year)

CGPA:(8.6)

Nazareth Matric Higher Secondary School(2022)   (90.6%)

St.Joseph's Matriculation School(2020)   (84.4%)

WORK EXPERIENCE

START UP COMPANY

Frontend Developer Intern -Critter Graphix

Developed and optimized a responsive e-commerce website during my internship at Critter Graphix, enhancing user experience and front-end performance. Leveraged HTML, CSS, JavaScript, and modern frameworks to deliver a consistent and engaging UI across devices.

PROJECTS

Happy Tails-Pet Adoption Website

Designed a responsive pet adoption website using HTML, CSS, and JavaScript. It includes features like an image slider to showcase pets, a filtering option to browse by pet type, and an easy-to-use interface to help connect people with animals in need of a home

Quick Bite: Food Website

Developed a responsive food ordering web app with a dynamic menu, cart system, and user-friendly modals using HTML, CSS, and JavaScript. The back end, built with Node.JS and Express, handles storing and managing the total food amount for efficient order processing

SKILLS

Technical Skills: HTML,CSS,Java Script,Node JS,Express JS,Java,C.

Soft Skills: Communication,Teamwork,Adaptability.
Certifications & Training: Online Course Certification in NPTEL(DBMS),
Intern Certification -Critter Graphix,Oasis Info Byte.
