PROFESSIONAL SUMMARY

Computer Science student with a strong interest in web development and problem-solving. Known for quickly adapting to new tools and challenges while maintaining attention to detail. Effective in team settings, ensuring consistent delivery of high-standard work

EDUCATION

B.E Computer Science and Engineering CGPA: 8.55

Velammal Engineering College

2022-2026

Chennai, India

Senior Secondary (XII) Percentage:90.6%

Nazareth Matric Higher Secondary School

2022

Secondary (X) Percentage:84.4%

St.Joseph's Matriculation School

2020

PROJECTS

Quick Bite: Food Website

Built a responsive food-ordering web app with dynamic menu and cart; used HTML, CSS, JavaScript, Node.js, and Express to store orders and calculate totals.

YOLO-Based Kidney Stone Detection and Localization System

Created a YOLO-based model that detects and segments kidney stones in CT scans, delivering size estimates and anatomical localization to aid clinical support.

WORK EXPERIENCE

CRITTER GRAPHIX -Frontend Developer

June 2024-July2024

Assisted in building a responsive website with well-structured layouts and easy navigation using HTML, CSS, and JavaScript.

VBIND INNOVATION -Full Stack Developer

Nov 2024-Dec2024

Integrated front-end functionality with back-end API's to manage cart updates and ensure accurate total amount calculations.
